

SITUATIONAL AWARENESS

USING INTELLIGENT ACCOUNTABILITY™

TAG, TRACK & REPORT

To gain order and control, it takes boots on the ground to assess the incident as well as solutions that identify and locate all resources in real-time.

TAG

- Create interoperable IDs to track all officers and teams (i.e. specialty teams, K9 units, etc.)
- Manage personnel certifications, credentials, and rostering
- Remotely check-in and view resources on a map

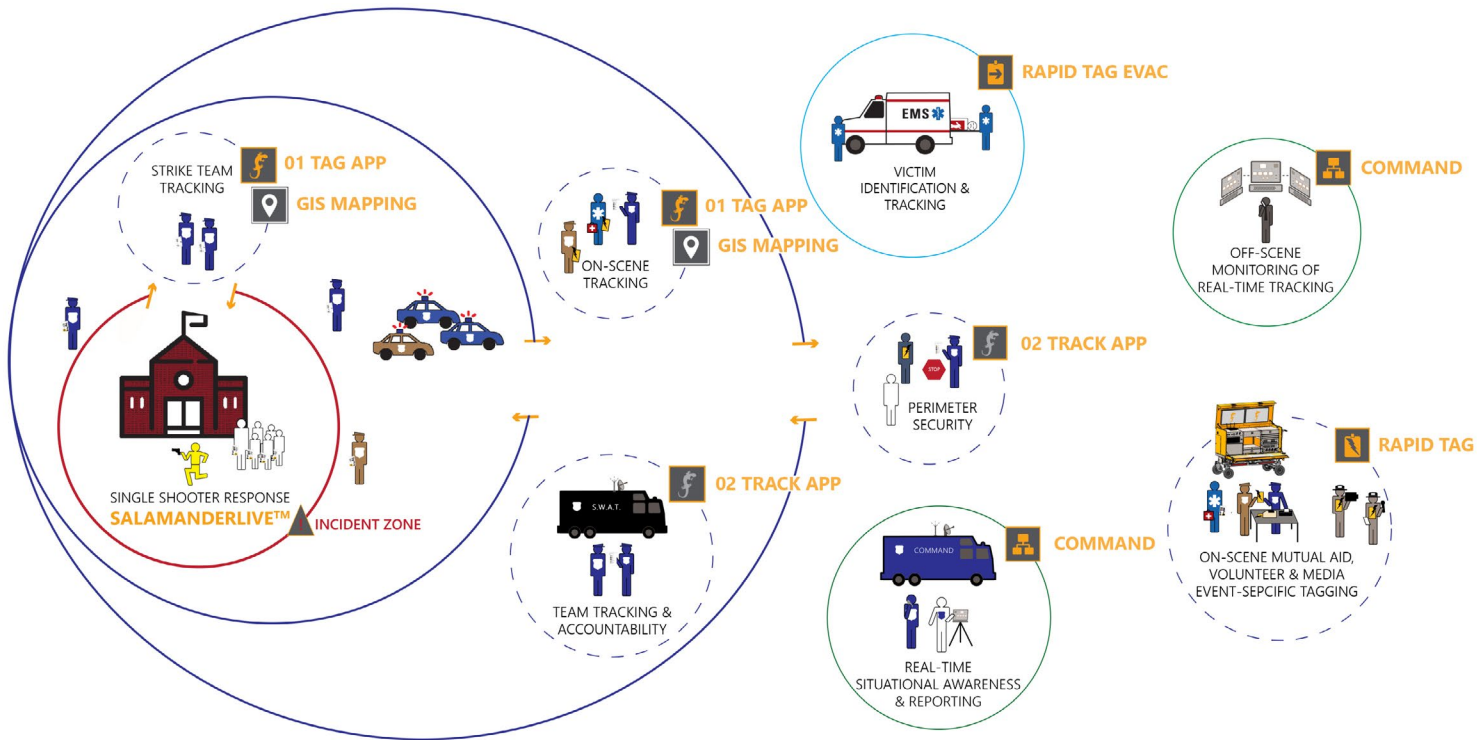

TRACK

- Utilize tablets and smart phones for mobile tracking
- Know where every officer is located, mobile and on foot, with GIS MAPPING
- Automate incident development and initial asset tracking with CAD integration
- Provide perimeter security for crime scenes, events and other sensitive areas

REPORT

- Utilize pre-planned templates for all incident types (i.e. events, crisis planning, etc.)
- Provide comprehensive incident logs with real-time activity and detailed reporting for debriefing
- Gives situational awareness with off-scene activity
