

SALAMANDERLIVETM

To sustain a permanent state of readiness, complete visibility and dependable information is key. Strategically prepare, carry out, record, and analyze using SalamanderLiveTM – a web-based solution that allows you to easily navigate situations to have the RIGHT RESOURCES, are at the RIGHT PLACE, at the RIGHT TIME, with the RIGHT CREDENTIALS.

When a disaster hits, TAG your responders, volunteers, patients, evacuees, equipment, etc. so you know exactly who is on-scene and what their qualifications are. TRACK all the activity in real-time during an event or incident and establish a common operational picture across responding organizations. REPORT on all EOC information and easily create comprehensive logs for debriefing.

TAG

- Create interoperable IDs to TRACK all responders, volunteers, patients, evacuees, civilians, and equipment involved
- Manage personnel qualifications, rostering, and medical data
- Remotely check-in and view resources on a map
- Supports NIMS federal standards

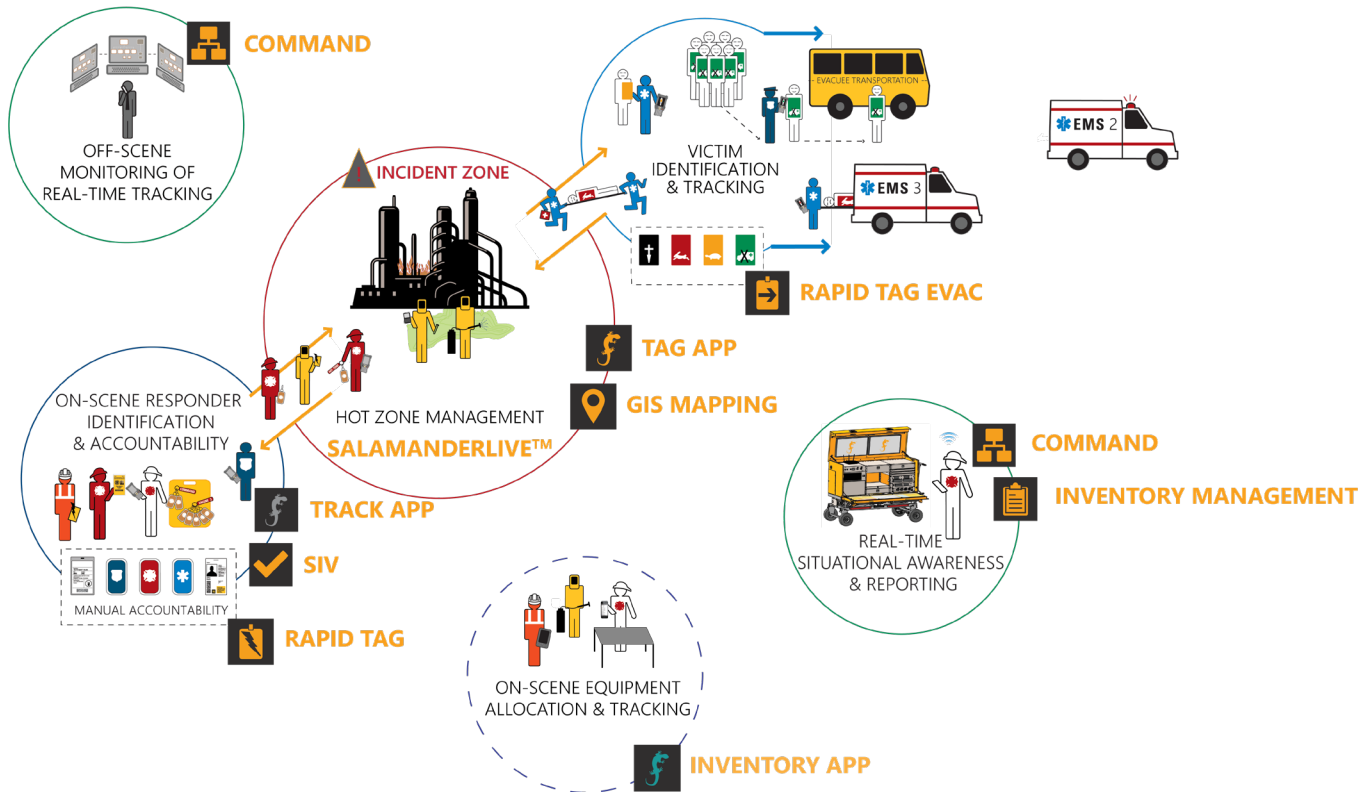

TRACK

- TRACK and timestamp all resource activity
- Utilize tablets and smartphones for mobile tracking
- Begin tracking and accountability efforts instantly with CAD integration
- Manage accountability in comms-in and comms-out environments

REPORT

- Get prepared with pre-planned templates and test them during exercises and drills
- Provide comprehensive incident logs with real-time activity and detailed reporting for debriefing
- Have situational awareness with off-scene activity

SALAMANDERLIVE™ EMERGENCY MANAGEMENT SOLUTIONS

RECOMMENDED SOLUTIONS FOR EMERGENCY MANAGEMENT
